
Fira Barcelona
ENDLESS LOCATIONS
FIRA BARCELONA

HUNDREDS OF LOCATIONS UNDER ONE ROOF

Fira Barcelona offers, in Barcelona city centre, large facilities for commercials, photo shoots and movies.

An old textile factory style (Fira Montjuïc) opposed to the avant-garde design (Fira Gran Via), makes this venue an amazing option to shoot in Barcelona downtown.

Besides 2 huge stages (2,400m2 & 9,000m2), there are countless additional locations to shoot in the same venue, such as vast lobbies, escalators, offices, auditoriums, restaurants, kitchens, loading bays and an heliport with a breathtaking skyline.

Setting up a football pitch and doubling an airport or a train station are some of the possibilities in Fira Barcelona. An endless number of options waiting to be discovered in Barcelona city centre!

Fira Gran Via Heliport

LOBBIES

Fira Barcelona's vast lobbies are flooded with natural light that makes a great double for an airport concourse or a shopping mall.

Fira Gran Via North Access	2,600 m2
Fira Gran Via South Access	3,100 m2
Fira Gran Via East Access	2,800 m2
Fira Montjuïc Barcelona Congress Center	1,500 m2

WAREHOUSES

Fira Montjuïc has the looks of an old textile factory. It has four different warehouses from early 20th Century with variety of styles, shapes, building materials and sizes (from 2,000 m2 up to 19,000 m2). Moreover, there is an external area of approximately 16.000 m2. Feel free to check the 360º tour in www.firabarcelona-guestevents.com/montjuïc

Fira Gran Via has nine vast warehouses built on the last decade. These cutting-edge halls have been designed by Toyo Ito, winner of the 2013 Pritzker Prize. Feel free to check the 360º tour in www.firabarcelona-guestevents.com/gran-via

STAGES

Fira Gran Via Hall 2 is the largest pillar-free space in Barcelona, with a surface area of 9,000 m2 and a maximum ceiling height of 14 m. It contains several ancillary rooms ideal for celebrities, staff and production offices.

The Italian Pavilion in Fira Montjuïc is the largest pillar-free venue at Barcelona downtown (2,400 m2 & 14m high). It has an outstanding location, just in front of the famous Montjuïc Magic Fountain, designed by Architect Carles Buïgas in 1929, with its popular music, water and lights show; a feature known worldwide.

ESCALATORS/TRAVELATORS

The avant-garde Fira Gran Via venue built by Toyo Ito, the winner of Pritzker Prize 2013 has a total of one mile of travelators and plenty of large escalators in amazing locations. One of the most popular options in Fira Gran Via is doubling airports. Besides escalators and travelators, we also have lounges, offices, large lobbies and elevators.

LOADING BAYS

Fira Montjuïc has a total of 100,000 m2 while Fira Gran Via holds 200,000 m2 of exhibition space with several halls each. In between the exhibition halls, countless loading bays with different scales and materials offer a perfect background for industrial productions or urbanscapes. We also have a huge external multipurpose area of 16,000 m2 in Fira Montjuïc.

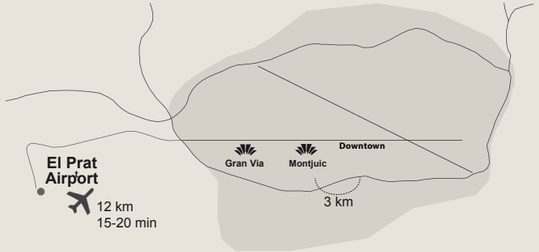
HELIPAD

Fira Barcelona's Gran Via venue has an helipad featuring a contemporary urban skyline with such versatility that it has been used in several music videos, spots, photoshootings and films. It is surrounded by skyscrapers built in the last decade in a newly developed district of Barcelona.



FILM SERVICES

Our team gathers professionals with an extensive experience in the industry and works directly with location professionals and productions organizers. Our mission is to provide advice and coordinate all the services involved, coming up with the best solutions from planning to delivery onsite.
