

SMARTCITY

EXPO **KUALA LUMPUR**

17 - 19 **SEPTEMBER 2025**

KUALA LUMPUR CONVENTION CENTRE

PROGRAMME BOOK

REDtone empowers future-ready Smart Cities and Enterprises with AI Agents

We design purpose-built AI Agents for urban governance, enterprises, and city management, helping municipalities and businesses deliver seamless citizen services, efficient operations, and data-driven decisions. From service requests to workflows, infrastructure monitoring to compliance and community engagement, our AI Agents work across city and enterprise functions to accelerate approvals and improve transparency, shaping livable, sustainable, future-ready cities.

REDtone AI Agents tailored for smart cities and enterprises

Citizen Services	Citizen Services AI Agent	Omnichannel support, service requests, faster resolution
Licensing & Approvals	Approval & Licensing AI Agent	Automates license, permit, and application processing
Finance & Budgeting	Smart Finance AI Agent	Budgeting, reconciliation, financial reporting
Governance & Compliance	Governance & Compliance AI Agent	Regulatory monitoring, audit automation, SOP search
Urban Infrastructure	Infrastructure Analytics AI Agent	Real-time monitoring of assets, utilities, and urban systems
Municipal Operations	Municipal Workflow AI Agent	Automating cross-department approvals and city processes
Community Engagement	Community Engagement AI Agent	Outreach, digital campaigns, engagement tracking

About #SCEKL25

About Smart City Expo World Congress

The **Smart City Expo World Congress (SCEWC)** is the largest and most influential event dedicated to urban innovation.

Visionary leaders from companies, governments and organisations come together to shape a sustainable future.

SMARTCITY
EXPO WORLD CONGRESS

Fira Barcelona
INTERNATIONAL

A GLOBAL SMART CITY MOVEMENT

In addition to the annual main event in Barcelona, SCEWC hosts international editions known as Smart City Expo (SCE) that takes place in countries like the USA, Mexico, Colombia, Brazil, Chile, Saudi Arabia, China and Malaysia.

About Smart City Expo Kuala Lumpur

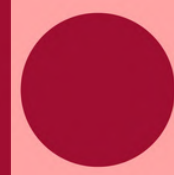

Smart City Expo Kuala Lumpur (SCEKL) is Southeast Asia's main gathering for city innovation and digital change.

As the first Smart City Expo in our region, #SCEKL25 brings together experts, government officials, and industry leaders to showcase practical solutions for building cities that protect our environment and leverage on technologies.

#SCEKL25 offers a key platform for sharing new ideas while building partnerships across Southeast Asia countries and beyond.

SMARTCITY
EXPO **KUALA LUMPUR**

17 - 19 SEPTEMBER 2025
KUALA LUMPUR CONVENTION CENTRE

Smart City Expo Kuala Lumpur is hosted and organised by three key Malaysian organisations working to drive the nation's digital future:

Host

MINISTRY OF DIGITAL

The Ministry of Digital leads Malaysia's digital growth agenda, creating policies and plans that help the country thrive in the digital age. The Ministry works to ensure all Malaysians can take part in and benefit from the digital economy.

Organisers

Malaysia Digital Economy Corporation (MDEC) is the government agency that puts these digital plans into action. Since 1996, MDEC has led programmes that help businesses go digital, build tech skills among Malaysians, and attract digital investments to the country.

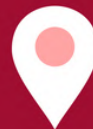

Digital Nasional Berhad (DNB) leads the development and management of Malaysia's 5G infrastructure, delivering ultra-fast, low-latency connectivity that underpins smart cities and next-generation digital services. By building a robust, future-ready digital backbone, DNB is driving Malaysia's evolution into a high-tech, innovation-led economy.

Brought By

SMARTCITY
EXPO WORLD CONGRESS

The event is organised in partnership with Smart City Expo World Congress and Fira Barcelona, bringing their global expertise in smart city events to Southeast Asia.

Aligning with Malaysia's Digital Roadmap & Smart City Vision

In line with Malaysia's Digital Economy Blueprint, the Malaysia Smart City Framework, and the nation's MADANI values, this theme signals the country's ambition to lead ASEAN's transformation through AI-powered innovation that is ethical, equitable, and sustainable.

AI Cities

Governments across Southeast Asia are adopting national AI strategies to modernise city services and infrastructure - accelerating the shift toward intelligent, responsive, and data-driven cities.

Sustainable & Resilient Cities

AI-powered systems are being deployed to enhance climate adaptation, improve energy efficiency, and build resilient urban infrastructure, aligning with regional goals under MPAC 2025 and the ASEAN Smart City Framework.

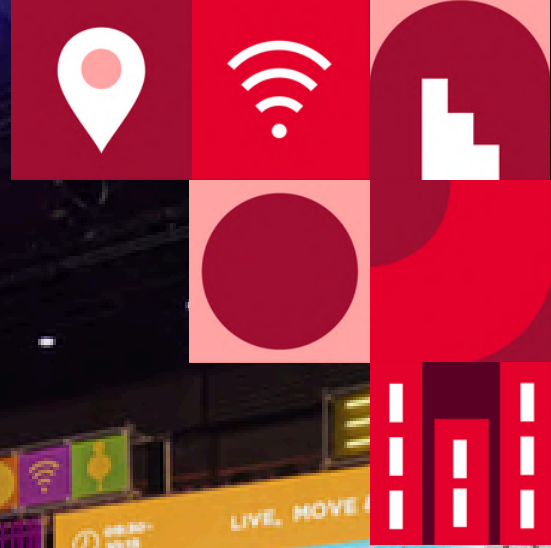

Digital Entrepreneurship & Economic Development

ASEAN's digital economy is projected to exceed USD 1 trillion by 2030. Governments are fostering AI startup ecosystems, urban tech sandboxes, and digital entrepreneurship hubs to unlock inclusive economic growth and future-proof employment.

Community Empowerment Through Digital Solutions

Cities are embracing AI to deliver more accessible citizen services, promote digital equity, and close the urban-rural divide. ASEAN initiatives are investing in digital literacy, e-government platforms, and financial inclusion through tech for underserved populations.

Conference Agenda & Speakers

Agenda

#SCEKL25

FULL PROGRAMME

Day 01 : 17 September 2025 (Wednesday)

TIME	AGENDA
OFFICIAL OPENING @ AI CITIES STAGE EXHIBITION HALL 1	
8:00 AM	Arrival of Guests & Registration

AI Cities Pitch Lab

DISCOVERING THE FUTURE OF URBAN INNOVATION AT THE AI CITIES PITCH LAB

In partnership with

URBAN INNOVATORS INVESTMENT - READY PROJECTS

The AI Cities Pitch Lab is a pre-qualifying platform where cities and urban innovators from ASEAN present **investment-ready projects** to venture capitalists, development banks, sovereign funds, and investors.

It serves as the gateway to various **investment - related Forums**, offering early feedback, refinement, and fast-tracking opportunities for the most impactful, AI - driven urban solutions.

What happens:

- 10-minute high-impact project pitches
- Real-time investor feedback and Q&A
- Scalable, future-ready innovations across ASEAN
- Solutions tackling climate, mobility, safety, and more

Shortlisted projects gain exclusive access to investors - a curated platform designed to elevate promising initiatives to the regional stage.

This forum offers greater visibility among a network of impact-driven investors, policymakers, and development partners.

The AI Cities Pitch Lab is designed for:

Cities & Municipalities

- Seeking funding to implement smart city or AI-driven public service projects
- Looking to position their city as a regional innovation leader.

City Leaders Programme

City Leaders Programme

Where ASEAN’s Smart City Visionaries Meet

The **City Leaders Programme** at **Smart City Expo Kuala Lumpur 2025** is a *hosted initiative* bringing together **mayors, governors, top municipal and city executives** from across ASEAN.

We are excited to host these city mayors at #SCEKL25:

Hon. Caesar S. Dy, Jr.
City Mayor
City of Cauayan

Darel Dexter Tang Uy
Provincial Governor
Provincial Government of Zamboanga Del Norte

Darwin Manubag
Chief Operating Officer & City Administrator
City of Illigan

Edelson M. Marfil
City Mayor
Mayor of Libmanan, Camarines Sur

Edmond B. Gastanes
Vice Mayor
Local Government Unit, Narra

Edreluisa Ocol Calonge
Municipal Mayor
Local Government Unit of Mabuhay

Evelyn Tang Uy
City Mayor
Local Government Unit, Dapitan City

Gerandy Danao
Mayor
Narra, Philippines

Jerold Borja Peña
Municipal Mayor
Local Government Unit of San Jose

**Subject to change; updated as at 8th September 2025.*

Dr. Kanop Ketchart
Mayor
Nakhon Si Thammarat City

Khamphouy Sengsoulith
Head of Foreign Affairs Section
Luang Prabang City
Administrative Office

Kristine Hao Kho
Municipal Mayor
Local Government Unit,
Mandaon, Masbate

Niachapa Amphiar
Smart City Officer
Phitsanulok Municipality

Ramses Troy D. Olegario
Municipal Mayor
Local Government
Unit of Ipil

Samuel S. Co
City Mayor
Local Government Unit,
Pagadian City

Severino Jr. Herico Francisco
Municipal Mayor
Local Government Unit of
Labo, Camarines Norte

Sinforoso Jr. Magallanes
Sarmiento
Municipal Mayor
Local Government Unit of Virac

..and many more!

**Subject to change; updated as at 8th September 2025.*

This is where real influence meets real opportunity.

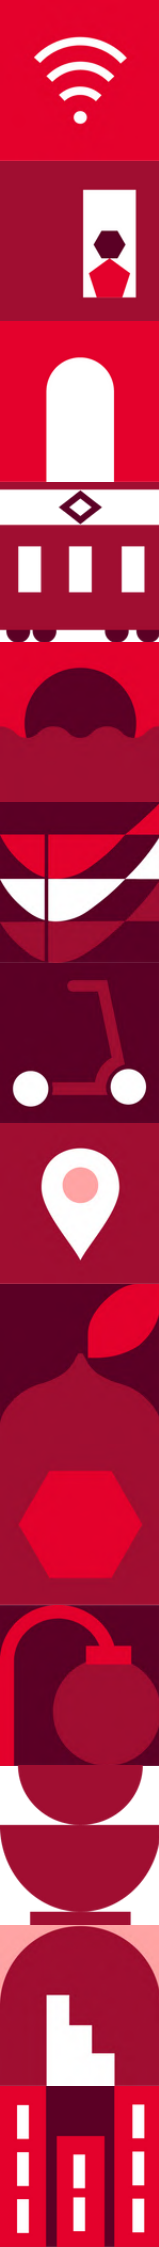

These leaders have the authority to shape urban development - from approving smart city projects to setting policy direction for their cities.

Exhibition Highlights

Diamond Partner DELL TECHNOLOGIES

Dell Data Center and PCs
Solutions

Booth no. 1501

Dell Technologies (NYSE:DELL) helps organizations and individuals build their digital future and transform how they work, live and play. The company provides customers with the industry's broadest and most innovative technology and services portfolio for the AI era.

E-Hailing Partner GRAB

GrabMaps

Booth no. 2301

GrabMaps is a leading provider of hyperlocal mapping technology and location data solutions, built in Southeast Asia and made for the world.

Initially developed to power Grab's Superapp across Southeast Asia, GrabMaps leverages a unique community-driven approach, real-time ground truth from millions of driver-partners, and proprietary AI-powered mapmaking tools like KartaCam. This ensures unparalleled accuracy, coverage, and freshness, capturing the intricate nuances of Southeast Asia.

Beyond powering Grab's own services, GrabMaps offers its robust BaseMap data, APIs via Amazon Location Services, and an end-to-end Mapmaking IoT & SaaS toolstack, empowering businesses and governments globally to build their own precise and dynamic mapping solutions, wherever they operate.

Diamond Partner INTEL TECHNOLOGY SDN BHD

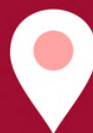

Intel Metro AI Suite

Booth no. 1501

At Intel, we're committed to transforming cities worldwide through cutting-edge technologies, robust resources, and a thriving partner ecosystem. In today's data-driven era, real-time processing and decision-making are essential and AI at the edge is revolutionizing critical infrastructure. By unlocking insights from previously untapped data, we're enabling intelligence closer to where it's generated - in cities, on roads, stadiums, buildings and through video cameras. AI is no longer confined to the cloud; this marks a generational shift in how data is processed.

To meet the demands of real-time intelligence, data must be seamlessly integrated from diverse sensor sources, including cameras, LiDAR, radar, and IoT devices. Intel's Metro AI Suite provides a comprehensive application framework with libraries, tools, and reference implementations, empowering partners to build critical infrastructure AI Cities solutions across Video Safety and Security, Transportation, Government Edge, Federal and Aerospace markets.

City Leader Partner

AMAZON WEB SERVICES (AWS)

Amazon Web Services
(AWS) Cloud

Booth no. 4521

Amazon Web Services (AWS) is the world's most comprehensive and broadly adopted cloud, offering over 200 fully featured services from data centers globally. Millions of customers—including the fastest-growing startups, largest enterprises, and leading cities and government agencies—are using AWS to lower costs, become more agile, and innovate faster. Across urban sectors, AWS cloud is leveraged to build innovative solutions to make cities more livable, sustainable, and accessible for their citizens.

Business Lounge Partner

MASTERCARD ASIA/ PACIFIC PTE LTD

Booth no. 2921

Mastercard powers economies and empowers people worldwide. With our customers, we deliver a wide range of payment choices, making transactions secure, simple, smart and accessible.

Our core payments and commercial and new payment flows, work so everyone, everywhere can participate in the digital economy on their own terms.

This combined with our value-added services, are responsible for acquiring, engaging, and retaining customers by managing fraud and risk, enhancing cybersecurity, and improving the digital payments experience.

Marketing Partner

MACROKIOSK

BOLD. enterprise solutions
platform by MACROKIOSK

Booth no. 2403

BOLD. enterprise solutions platform, engineered with our AI solution, drives businesses to acquire, grow and retain customers by streamlining omnichannel communication, multichannel payment, analytical engagement and actionable marketing to optimise business journeys.

Strategic Partner

INTEGRATED DESIGN AND ENGINEERING HOLDINGS

A member of Tokio Marine Group

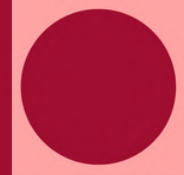

**Enfrastructure and
The Good City**

Booth no. 2603

We have two principal approaches to create smart cities worldwide: "Enfrastructure" and "The Good City." "Enfrastructure" enhances infrastructure to better serve communities, with "En" derived from the Japanese word for human connection.

ID&E Group's smart city vision integrates infrastructure expertise into solutions for societal challenges. "The Good City" initiative aims to help cities globally become better by bringing together our designers, urbanists, engineers, environmental scientists, and technologists to provide targeted services. The purpose is simple: to help cities improve. Our goal is to unite our group's wide range of experts to offer comprehensive services for cities.

We believe cities can and should be good for economic growth, quality of life, wellbeing, arts and culture, and the environment. However, cities often fail to reach this potential, which is why we are developing "The Good City Campaign" by "Enfrastructure" to address this issue.

Strategic Partner TM ONE

TM One AI Park City

Booth no. 2421

TM One AI Park City demonstrates how AI and digital innovation solve real challenges for councils, planners, and communities. From safer streets to greener environments and better citizen services, our solutions address inefficiencies, safety, climate, and resource constraints. Experience how TM One is shaping the future of AI Cities with real-time, data-driven solutions:

- City Intelligence Command
- AI that sees, predicts, and responds to every movement in the city.
- Citizen Connection Hub
- AI that connects people and services; seamless, fast, and reliable.
- Sustainable Living & Wellbeing | AI that nurtures nature, brings healthcare closer, and gives every voice impact.
- Digital Enabler
- Edge + GPUaaS: The engine for connected, intelligent cities.
- Proven Impact & Future Partnerships | Collaboration that transforms, innovation that wins.

PropTech Partner JLL MALAYSIA

Booth no. 2405

We believe in the power of real estate to shape a better world. Our innovative, intelligent and sustainable approach includes AI-driven solutions that help illuminate a brighter way forward.

Strategic & Networking Partner REDTONE DIGITAL BERHAD

REDtone

Future-Ready Cities Driven By AI

Real-time visibility, GIS mapping, and AI-powered insights for smarter, sustainable urban growth

REDtone

Smart City Asset Management Solution

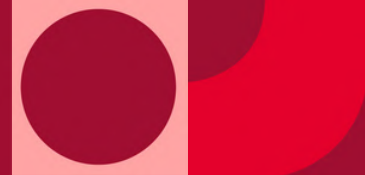

Booth no. 2201

REDtone's AI-powered Smart City Asset Management solution helps policymakers, city planners, developers, and infrastructure stakeholders make faster, smarter, and more informed decisions.

By integrating GIS technology with real-time data modelling, intuitive visualisation, and AI-driven analytics, the platform provides a spatially accurate and actionable view of urban infrastructure. This enables cities to see not only what assets they have, but also where they are, how they are performing, and what risks may emerge.

The solution supports the full asset lifecycle, from planning and regulatory compliance to maintenance and performance monitoring, all within a single, user-friendly interface. Whether monitoring asset health, aligning with regulations, or planning for sustainable growth, REDtone simplifies complexity and empowers confident, data-led decision-making.

Backed by extensive expertise in telecommunications and digital infrastructure, REDtone delivers a ready-to-deploy solution designed to enhance efficiency, drive sustainable development, and build smarter, more resilient urban environments.

AKATI SEKURITI (M) SDN BHD

AKATI Sekuriti Blackhawk iSOC

Booth no. 4201

The AKATI Sekuriti Blackhawk iSOC redefines managed security, transforming the Security Operations Center from a passive alert system into an active, intelligence-driven defense hub. Operating 24x7x365, the service leverages AKATI Sekuriti's global expertise, honed since 2007.

Its primary differentiator is a continuous feedback loop of threat intelligence. The iSOC is uniquely enriched by live data from the firm's elite frontline services: Intel-Led Penetration Testing, Darkweb Monitoring, and active Incident Response cases. This provides the critical context to move beyond noise and automation. Analysts identify, hunt, and neutralize credible threats before they can impact business operations. The result is not just a list of alerts, but prioritized, actionable intelligence that preserves operational resilience and protects critical assets with proven, battle-tested methodologies.

GLOCOMP SYSTEMS (M) SDN BHD

glocomp®

DJI Enterprise

Booth no. 2621

DJI drones are at the forefront of cutting-edge aerial technology, empowering smart cities to enhance safety, efficiency, and sustainability. Equipped with advanced sensors, high-resolution cameras, and intelligent flight systems, DJI drones provide real-time data and aerial insights for urban planning, infrastructure inspection, traffic management, environmental monitoring, and emergency response.

PRESGO GATEWAYS SDN BHD

MySmartCity
ecosystem

iENFORCE
INTELLIGENT INTEGRATED ENFORCEMENT

iData

AIRES
ARTIFICIAL INTELLIGENCE ROUTING
ENFORCEMENT SYSTEM

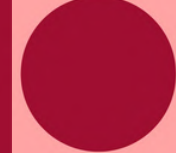

myHero

1. MySmartCity Ecosystem
2. iEnforce
3. iData
4. AIRES
5. myHero

Booth no. 2502

- MySmartCity Ecosystem – An integrated digital platform with embedded AI connecting citizens, businesses, and government services, delivering smarter urban living through seamless access, engagement, and management.
- iEnforce – An AI-powered enforcement solution for real-time monitoring, violation detection, and automated penalty management, ensuring safer and more compliant communities.
- iData – Presgo Gateways' technology solution brand with embedded AI, providing advanced data analytics, integration, and insights to empower smarter decision-making.
- AIRES – The AI Routing & Enforcement System that optimizes field operations, resource deployment, and service efficiency through intelligent algorithms and real-time adaptability.
- myHero – A citizen super app for accessing local services, reporting issues, making payments, and receiving updates, fostering convenience and community engagement.

IMPACT BUSINESS SOLUTIONS SDN BHD

impact
business solutions
IBS Digital Twin

Booth no. 2721

Integrated IBS Digital Twin Solution for Smart Decision-Making

We offer a comprehensive Digital Twin platform that unifies diverse systems into a centralized command environment. The solution seamlessly integrates real-time data, CCTV, IoT, GIS, BIM, PIM, 3D modeling, AI modules, and more—clearly visualized across large video walls, operator consoles, and mobile devices within the Integrated Operations Center (IOC).

Built for city mayors, government agencies, board members, and frontline operators, the platform provides full situational awareness and centralized visual intelligence. It supports rapid, informed decision-making and immediate ground-level response by incorporating event detection from CCTV, IoT devices, and third-party platforms—automated through connected workflows within a unified interface. By bridging data silos and visualizing complex urban dynamics in real time, the solution transforms fragmented infrastructure into a single, actionable environment with precise geolocation—empowering leadership with operational control, risk mitigation, and future-ready planning capabilities.

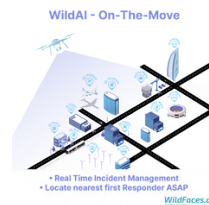

TIMETEC COMPUTING SDN BHD

timeTec
TimeTec Cloud City
Booth no. 2607

TimeTec Cloud City Ecosystem features 18 integrated modules that support digital transformation across construction, residential, commercial, and township developments. From smart offices to parking, security, workforce, and residential solutions, we harness AI, IoT, biometrics, and cloud technology to build smarter, more connected environments.

WILDFACES TECHNOLOGY LIMITED

WildFaces.ai
WildAI On-The-Move

WildAI On the Move using moving cameras including drone

Booth no. 2201

WildFaces' patented "On-The-Move" Artificial Intelligence (AI) based analytics system can provide video, sound and smell analytics from moving sensors/cameras on drones, moving robots and body-worn cameras. Such systems have been implemented on numerous government and commercial sites worldwide.

Applications range from anonymized tracking (with privacy protection) and traffic congestion management to sound and smell analytics.

WildFaces' unique technology, WildAI, requires minimal training, is computing light (does not require GPUs) and can be deployed very quickly. The technology:

- Operates in real-time even when the sensor is "On-the-move".
- Requires limited data training eliminating labour-intensive non-AI tasks such as labelling.
- Is infrastructure light (e.g. 50 times fewer cameras required).
- Is computation light i.e. able to conduct analysis from a distance using lower resolution images and without requiring expensive GPUs.

WildFaces is a spinoff of iOmniscient, the world's oldest provider of the most comprehensive portfolio of AI based multi-sensory analytics.

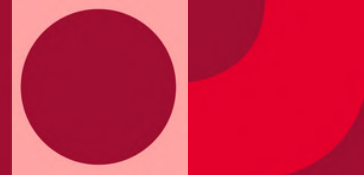

MAP2U SDN BHD

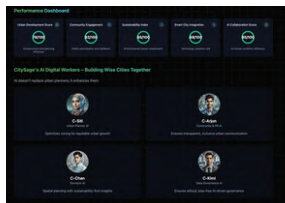

MAP2U
MD ANALYTIC

Booth no. 4401

The MD Analytic Platform is an integrated solution for data management, analytics, and user engagement. It provides a structured environment for users to manage their data effectively while ensuring a seamless onboarding experience. The platform consists 4 core module MD Homepage Module, MD Data Management, MD Analysis & Algorithm and MD Visualization.

CITYSAGE

Booth no. 4204

CitySage – Making Cities Not Just Smarter, but Wiser

CitySage is a Malaysian AI urban intelligence startup helping governments, councils, utilities, and developers make faster, smarter decisions.

Our platform combines AI agents, geospatial analytics, and secure data infrastructure to deliver actionable insights—from optimising traffic to predicting infrastructure failures—improving efficiency, reducing costs, and enhancing quality of life.

Backed by national agencies and major accelerators, CitySage is building scalable, future-ready tools tailored for Southeast Asia's urban challenges.

INTEGRA CITY - FZCO

INTEGRA CITY

Booth no. 4721

Integra City is a multitasking system that incorporates the AI-controlled set of up-to-date platform solutions for Smart and Safe Cities, including the Nexus, Kodex, Bordex, and Sfera platforms. Nexus is aimed to improve urban safety and municipal governance. This system integrates advanced technologies for video surveillance, analytics of data as well as control and communications systems. Kodex is aimed on digitization of public services ensuring automation and optimization of processes related to the flow of documents, as well as pertinent to tax/charge assessment and accounting, unification of national ID systems etc. Bordex is an integrated solution to ensure security of state borders (both land and maritime), near-border facilities and of infrastructure of critical importance, including railways, pipelines and other utility lines. Sfera is an integrated solution aimed to digitization of urban environment and enhancement of its accessibility for city dwellers. It performs monitoring, management and control of urban infrastructure.

CYBERSOLUTION TECHNOLOGIES SDN BHD

C360 Govtech

Booth no. 2601

C360 is a comprehensive, modular suite of enterprise-grade digital solutions tailored for the commercial sector. Whether you're a growing SME or an established enterprise, C360 enables your business to scale efficiently, boost agility, and make smarter, data-driven decisions across finance, procurement, asset management, and human resources.

Built on the same proven foundation as our government-grade platforms, C360 delivers cloud-native, AI-powered tools that simplify complex operations while maintaining full visibility and control. Designed with ultimate workflow flexibility in mind, its plug-and-play architecture seamlessly adapts to your business model and industry needs — helping you digitize processes, optimize performance, and stay competitive in a rapidly evolving digital economy.

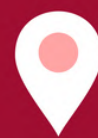

IS-WIRELESS

LiquidRAN™

Booth no. 2423

Our flagship product, Liquid RAN™, is a patented system featuring a near-RT, AI-driven RIC controller. It self-heals after cyberattacks or infrastructure damage, resists jamming to keep comms secure, and runs on any existing or diverse hardware, enabling fast and cost-effective deployment.

IOMNISCIENT PTY LTD

iOmniscient provides AI based Multi-Sensory Analytics (video, sound and smell) to better replicate human reasoning. These technologies are proven and have been implemented in 70 countries to make cities safer and more productive.

With privacy protection for all its products, iOmniscient is an ethical AI company. With 70 International Patents, iOmniscient addresses complex, extremely crowded and realistic environments – doing things that no one else can do.

Its Autonomous Response capability can find the nearest appropriate responder and tell them where to go and what to do reducing response times by over 80%.

The company is focused by industry and has developed and deployed over 300 Use Cases primarily for Smart Cities

iOmniscient does MORE with LESS. Its solutions require fewer cameras, 90% less storage and network bandwidth and less computing resources and it can be less expensive to implement an iOmniscient intelligent system than one without intelligence.

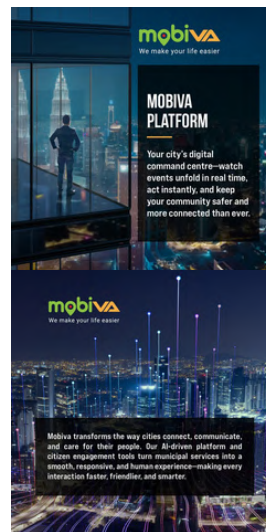

CELCOMDIGI BERHAD

Booth no. 2501

CelcomDigi is Malaysia's largest mobile network operator with more than 20.4 million users, driven by the purpose of advancing and inspiring society through technology and innovation. With the country's widest combined network footprint and extensive distribution touchpoints, the company empowers communities, businesses, and individuals with innovative and impactful connectivity and digital solutions. Committed to inclusivity, superior customer experience, and responsible business practices, CelcomDigi aspires to advance the nation, inspire Malaysian society, and be a leader in inclusion and ESG practices. For more information, visit www.celcomdigi.com

MOBIVA SDN BHD

1. Mobiva Platform
2. Rivabot
3. WhatsApp AI Agent
4. Rivastor SmartConnect

Booth no. 4205

Mobiva is here to make cities smarter, faster, and more connected. Our Mobiva Platform operates like a real-time control room, helping councils respond quickly to emergencies, enhance services, and maintain community safety. Rivabot is the behind-the-scenes AI assistant that helps council teams work more efficiently. For the public, our WhatsApp AI Agent gives instant replies, routes issues to the right people, and speeds up problem-solving. And when talking directly is best, our Rivastor SmartConnect Hotline connects citizens to council staff instantly through voice — no downloads required. With Mobiva, city services become more responsive, more accessible, and more human.

COMPASIA

We Buy. We Sell.
Second-hand Devices.

Booth no. 2406

CompAsia is Malaysia's #1 second-hand tech company. Here you will find high quality second-hand tech that has gone through a 32-step quality check to ensure 100% functionality and at least 80% battery health. Visit us today and discover second-hand devices that are good as new for less.

JAPAN ASSOCIATION FOR SMART CITIES IN ASEAN (JASCA)

Booth no. 2226

JASCA (Japan Association for Smart Cities in ASEAN) was established on October 2, 2019, to promote public-private partnerships for ASEAN smart city initiatives. It serves as a one-stop contact point, provides information on ASCN cities, supports matching with Japanese companies, and continuously promotes Japan's smart city technologies and experiences throughout the ASEAN region. Our booth at Smart City Expo Kuala Lumpur features exhibitions by Japanese companies and organizations that are members of JASCA.

SYSTEM CONSULTANCY SERVICES SDN BHD

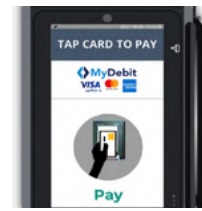

City Sense

Booth no. 4601

City Sense is an integrated command and control platform that integrates multiple information points into one interactive dashboard and command module to assist you on your daily key operations. Overlaying with a map layout, City Sense gives you an in-depth and comprehensive situational awareness of your operational surroundings.

Monitoring your enforcement assets, payment gateways, sensors, CCTVs and overlay it on your operational map will provide you a true sense of a command center that is both mobile and highly interactive, specially designed for local councils and regional governments, City Sense can also be implemented to any organization that requires the monitoring and control of assets over a large physical footprint.

SONICBOOM SOLUTIONS SDN BHD

Sonicboom Cashless
Payment Terminal (IM30)

Booth no. 2605

Our device is an all-in-one, payment terminal designed for secure, reliable, and efficient cashless transactions. Built for unattended environments such as kiosks, toll booths, vending machines, and parking systems, the device supports contactless cards, chip and QR codes, and mobile wallet payments like Apple Pay and Google Pay. Its rugged design ensures durability in outdoor and high-traffic settings, with a responsive touchscreen interface for an intuitive user experience.

The device is certified, ensuring the highest standards of payment security. Integrated with advanced connectivity options such as 4G and Wi-Fi, this device offers seamless integration with backend systems and real-time transaction reporting. Its open Android platform allows for flexible application development and remote updates, making it a future-ready solution. The device empowers businesses with fast, contactless transactions, reducing queues and operating costs while enhancing customer convenience and satisfaction in any unattended setting.

Official SCEKL Event App	The Smart City Expo Kuala Lumpur 2025 app is designed to make your experience seamless, interactive, and more productive. With the app, you can: 1. Discover and connect with fellow attendees, exhibitors, and speakers 2. Browse the full agenda and bookmark sessions that matter most to you 3. Schedule one-on-one meetings with participants ahead of time 4. Stay informed with real-time updates and announcements 5. Navigate the exhibition floor and explore the speaker line-up with ease 6. Download the SCEKL mobile app from Google Play Store or Apple App Store  
Lost & Found Counter	If you misplace or discover any personal belongings during the event, please visit the Centre's Security Services located at the Concourse Level.
Toilet	Toilets are located between the foyer of Halls 1 & 2, and foyer of Halls 4 & 5. Please follow the directional signage within the venue for easy access.
Prayer Room (Surau)	For our Muslim guests, three (3) dedicated surau with ablution facilities are available. One surau is located at the Concourse level for public use, while the other two are situated on Level 3 for event attendees' convenience.
