1. PURPOSE

The IOT Solutions World Congress is the **only event featuring demonstrations of Industrial IoT and emerging technologies**. The testbeds are strategically placed on our exhibition floor giving our attendees the opportunity to experience never-before-seen technology solutions in action.

Be one of the **10 selected to showcase your Testbed** at the 2022 edition of the IOT Solutions World Congress!

2. PARTICIPATION RULES

The Call for Testbeds welcomes all submissions. **Testbed space is complimentary if chosen.** However, incidental costs such as electricity, shipping, furniture, internet and others will be the responsibility of the testbed submitter(s).

There will be 10 selected Testbeds to be showcased at the 2022 edition.

HOW TO PARTICIPATE

Testbeds proposals can be submitted via an **online form** that you will find at <https://www.iotsworldcongress.com/activities/testbeds/> **by January 15, 2022.**

3. TIMELINE

- **Submission:** Participation submitted by 15 January 2022.
- **Evaluation:** 15 January - 25 January 2022
All submissions will first be reviewed by the Jury to ensure submission criteria is correct.
- **Pre-selected testbeds and renders:** January - February 2022
After the first evaluation, the Jury will select (15) pre-selected testbeds that will be notified. All pre-selected testbeds must send a render of their proposed staging by **10 February 2022** to be reviewed by the organization and jury.
- **Notification:** February 2022
All the participants will be notified of their acceptance or rejection.
- **Publication:** March 2022
The selected testbeds will be published on the website at <https://www.iotsworldcongress.com/activities/testbeds/>

4. EVALUATION CRITERIA

For each submission, the jury will score the following questions/criteria from 1 to 5:

- Degree of innovation.
- Impact for industry / society: does it represent an incremental change to the past or is it a whole new way of doing business?
- Scalability of the testbed is the concept applicable across multiple industries or is it very niche?
- Increased visual effect from the staging.
- If the Testbed has been in existence for some time, has it published meaningful results? Has it delivered “new knowledge” for industry?
- Something creative and impactful?

5. PREPARATION FOR THE TESTBED EXHIBITION

For the preparation of your Testbed, we will send you the contact details of the production and logistical department, in order to confirm your technical requirements for the testbed.
